Burpee's  
Seeds  
Grow

**WHOLESALE PRICES 1922**  
**For Market Growers**  
**and Florists**

**W. Atlee Burpee Co.**  
**Seed Growers Philadelphia**

# Burpee's Blue List for 1922

**Burpee's Blue List** is intended for the exclusive use of **Market Growers and Florists** who want **THE BEST SEEDS THAT GROW**.

The prices in this catalog cover cost of bags, boxes, and all packing but **do not include cost of transportation**. The purchaser pays freight or express charges upon receipt.

**SEEDS BY MAIL.** If seeds are ordered by mail, the cost of postage (Parcel Post rates) should be sent with the order. The Parcel Post rates are regulated according to distance, and the purchaser can readily ascertain the postage by applying to his postmaster. Parcel Post shipments will be insured if the purchaser so requests, in which case the cost of insurance should be sent with the order.

**SEEDS BY FREIGHT AND EXPRESS.** Where it is convenient to use Express service, we recommend it as economical, and you are assured of prompt delivery. Where very large quantities are to be forwarded, or the distance is short and time is not a factor, freight charges are, of course, lower than express. If your station is a "prepaid station," please send an amount sufficient to cover transportation charges with your order.

It is our desire to give our customers the benefit of whatever method of transportation may be most economical for them. Should you be in doubt as to the best method, we would suggest that you leave this to us, and take advantage of our wide shipping experience.

**C. O. D. SHIPMENTS** can be made by **express** (not by freight) when \$2.00 is remitted with the order to cover express charges and guarantee acceptance upon arrival. Small shipments may be sent by Parcel Post C. O. D.

**Perishable goods**, such as Potatoes, Onion Sets, Bulbs and Roots, **cannot be sent C. O. D.**

**OUR TERMS** are **Cash with the Order**, unless you are personally known to us, or in a business where we can learn your financial standing from the commercial agencies. Our prices are fixed **close to cost**, hence we must maintain our rule of "cash with the order" or C. O. D. by Express or Parcel Post.

**YOU RUN NO RISK** in sending cash with the order. Our reputation as honest and experienced seedsmen is known the world over. Our financial responsibility can be learned from any bank, trust company, or merchant who subscribes to one of the commercial Agency Reports. You may remit, **at our risk**, by post-office money-order, check, draft, or express order. Use registered letter if you send cash or stamps.

**HOW TO ORDER.** Please be careful to **sign your name** and **give your complete address on every order** and letter sent us. Order by catalog number or variety name—the number alone is sufficient. If you have an inquiry to make or other matters to refer to when sending an order, write the inquiry on a separate sheet of paper from your order and sign your name and address to each. Your orders will be promptly filled and your inquiries will receive careful attention.

**Our Advice is to Order Early**

---

## Burpee's Annual for 1922

**BURPEE'S ANNUAL** is the name of our retail catalog. It gives full descriptions of the many varieties of flower and vegetable seed which we supply, and much other information of interest and value. To Market Growers and Florists, we allow a **Discount of 25%** on seeds ordered in retail packets only from **BURPEE'S ANNUAL**. Ounces and fractions of ounces, quarter pounds and pounds are charged at the prices given in this catalog and are not subject to discount.

*This Catalog cancels all previous quotations.*

# BURPEE'S SEEDS

## The Best Seeds That Grow

Quality in seed is an important consideration with any planter. It is especially important to the Market Grower and the Florist, whose very livelihood depends directly upon the results of their crops. For many years **Burpee's Seeds** have enjoyed a well-deserved reputation for **quality** and **reliability**, and it is largely because of this fact that there are today more growers buying from **Burpee** than ever before.

At **Fordhook Farms** we conduct the **largest and most complete Trial Grounds in America**, where thousands of tests for germination and purity of seed stocks are made each year to safeguard our customers. These carefully made tests are supplemented by additional trials at our **Sunnybrook Farm** in New Jersey, and at **Floradale Farms** in California. Our Trial Grounds thus enable us to render a real and unique service to the planters of America. In buying Burpee's Seeds you are assured of getting seed of the utmost quality—seed from which the element of doubt has been removed as far as is humanly possible.

With seed, as with every other commodity, it costs more to produce best quality than it costs to produce average quality. But the best of anything is cheapest in the long run, and this is strikingly true with seed, for the cost of the seed is, almost without exception, the smallest item of expense in growing a crop. Even a slight improvement in a crop through the planting of quality seed will repay many times over the small additional cost of the seed.

## Highest Quality Seed at Lower Prices

We have been able to produce the **Burpee Quality Seeds** at a lower cost this year, and we are, therefore, pleased to give our customers the benefit of lower prices. It should be remembered that **Burpee's Seeds** are **The Best Seeds That Can be Procured at any Price**. It is only by doing such a large volume of business that we are able to give Burpee customers the benefit of the highest quality seeds at lower prices. We anticipate a tremendous demand for Burpee's vegetable and flower seeds in 1922.

The past season has been very dry and many seed crops are short. We would suggest that you order as early as possible. We are waiting to serve you now, or at any time throughout the year.

Wishing you a very Prosperous Year, we remain

Faithfully yours,

A large, elegant, handwritten signature in dark ink, reading "W. Atlee Burpee". The signature is written in a cursive style with a large, looping "W" and a decorative flourish at the end.

**Burpee Guarantee** W. Atlee Burpee Co. guarantee the vitality and purity of their seeds to the full amount of the purchase price. You can have your money back any time within the year if you are not satisfied with the results from Burpee's Seeds. Even with the Burpee Quality Seeds success in gardening or farming depends largely upon cultivation, soil, and weather conditions. It is therefore agreed that in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid for the seed or bulbs.

THE BURPEE STANDARD IN SEEDS is the highest it is possible to attain to-day, and yet we aim for still further betterment. PROGRESS is our watchword! Planters throughout the world, whether gardening for pleasure or profit, soon learn that "the best is the cheapest." These three sentences convey the principal "reasons why" the Burpee-Business grows steadily year by year. Shall we have the pleasure of serving you this season, or will you wait until importuned by some traveling salesman or storekeeper to buy other seeds claimed to be "just as good as BURPEE'S"? You may get as good, but you cannot get better seeds at any price!

BURPEE'S FORDHOOK FARMS are famous the world over as the largest and most complete trial grounds in America. It is here that practically all kinds of seed from every part of the world are tested side by side for their quality and purity. Single plant selection, cross fertilization, and stock seed selection are carefully handled by experts, and this accounts for the high standard of Burpee strains of vegetable and flower seeds and Burpee Novelties.

### BURPEE'S ANNUAL—The Leading American Seed Catalog

BURPEE'S ANNUAL is an interesting book of 180 pages. It tells the plain truth about The Best Seeds That Grow.

BURPEE'S ANNUAL is indispensable as a reference book for market growers and florists on account of its exact descriptions and many illustrations. Keep your copy of BURPEE'S ANNUAL handy.

A partial view of the Trial Grounds on Burpee's Fordhook Farms

# BURPEE'S NEW SWEET PEAS FOR 1922

## Summer-Flowering Varieties

**3475 Burpee's Giant White** "The greatest and most perfect white Sweet Pea in existence." So said a Sweet Pea expert after carefully comparing our new GIANT WHITE with the best existing white varieties as grown side by side at our FORDHOOK FARMS in June, 1920. Constance Hinton has for many years been the leader in black-seeded whites, but it must now give up its place to this wonderful Burpee novelty.

GIANT WHITE is well and truly named. It is gigantic in size, exquisite in form, and pure in color. GIANT WHITE is black-seeded; therefore perfect germination may always be depended upon. It is almost impossible to imagine anything more exquisite than this new variety. GIANT WHITE has been awarded Certificate of Merit by both The American Sweet Pea Society and The Pennsylvania Horticultural Society. GIANT WHITE is a seedling raised by our friend, Mr. A. G. Stark, of Great Ryburgh, Norfolk, England. We purchased the entire rights of naming and introducing this wonderful variety. We have now grown it for three years, both on our FORDHOOK FARMS and on our FLORADALE FARMS, and it has proven to fully justify our enthusiastic description. **Pkt. (20 seeds) 25 cts.**

**3457 Burpee's Floradale Purple** FLORADALE PURPLE is a great and decided advance in its color class. It is an outstanding novelty that has "come to stay." The color is a rich warm shade of rosy purple, considerably brighter than that old favorite, Royal Purple, and just a trifle lighter. The standard has a decided lustrous sheen, giving the entire flower a shining brightness quite distinct from other Sweet Peas of similar shades. The younger flowers are still a little lighter in color, which warms and changes as they age. Vigorous and strong in habit, the flowers are correspondingly large and usually borne in fours on very long stout stems. In shape, size, graceful arrangement on the stems, free-blooming character, and sturdy growth, FLORADALE PURPLE has everything to insure its popularity. Awarded Certificate of Merit by The American Sweet Pea Society, June, 1921, and The Pennsylvania Horticultural Society, June, 1920. **Pkt. (20 seeds) 25 cts.**

**3571 Burpee's Scarlet Duplex** The name "SCARLET DUPLEX" describes briefly both color and form; but to fully realize the outstanding beauty of the flowers they must be seen. Hitherto the so-called "duplex" varieties have invariably been poor growers, but not so with SCARLET DUPLEX, as it is most vigorous in growth and extremely free-flowering.

**Sunset**  
A beautiful rich rose with a distinct golden yellow blotch at the base of the flowers

The color is an intense rich glowing scarlet-crimson. It does not scald or burn even in the hottest sun. On the sprays of four flowers usually the three lower blooms are double, adding greatly to the weight and beauty of the flowers. BURPEE'S SCARLET DUPLEX is sure to become a winner as it surpasses all other scarlet varieties in richness of color, size, and graceful form. The sprays with their four large flowers make up into graceful bunches. Awarded Certificate of Merit by The American Sweet Pea Society at Boston, July, 1920, and by The Pennsylvania Horticultural Society, June, 1920. **Pkt. (10 seeds) 25 cts.**

**3577 Sunset** See illustration. In trials, both at our FORDHOOK FARMS in Pennsylvania and at our FLORADALE FARMS in California, SUNSET was pronounced by experts as being in the front rank of distinct Spencer Novelties. The color is a beautiful shade of soft though rich rose, the base of the flower having a distinct golden yellow blotch. The sprays are easily arranged in bunches which are wonderful for all kinds of decoration. The long strong stems usually bear four immense flowers each. SUNSET was honored with an Award of Merit by The Royal Horticultural Society of England, July, 1920, and by The National Sweet Pea Society at its trials, June, 1921.

**Pkt. (10 seeds) 25 cts.**

# Burpee's Early Flowering Sweet Peas

## NOVELTIES FOR 1922

**3341 Mrs. Warren G. Harding** (BURPEE'S) This distinct early or winter flowering novelty is a great and decided advance; it is really a pronounced acquisition to its color class. MRS. WARREN G. HARDING is a deep shade of silvery blue—the color that is already so well known as the "*Harding Blue*." The color is pure throughout, with no suspicion of mauve or rose. The flowers are immense in size, with a broad and much frilled standard. The wings are also well waved, and a large proportion of the flowers are duplex or double, which lends weight, size, and beauty to the bunch.

It is a vigorous grower, with strong vines and healthy, deep green foliage. One of the outstanding features of MRS. WARREN G. HARDING is its free-blooming habit. The individual sprays are light and graceful, with usually four flowers carried on a long and strong stem. They are easily arranged into airy and light bunches. We exhibited this novelty under the name of Silver Blue. By special permission from "The First Lady of the Land," however, we have now named this most outstanding novelty MRS. WARREN G. HARDING.

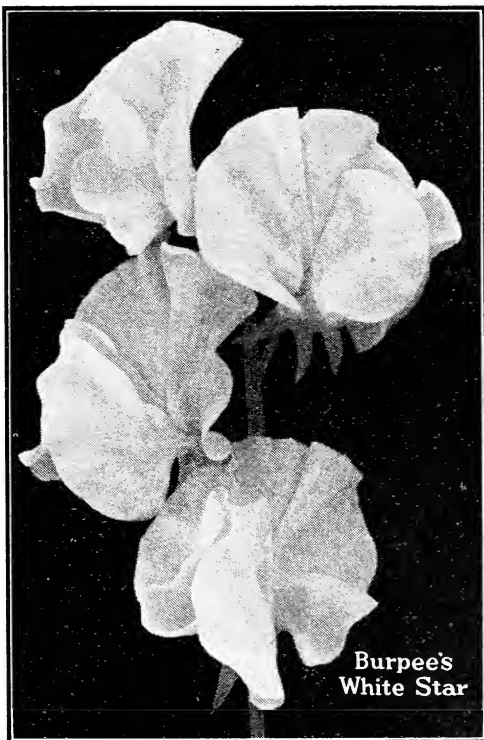

MRS. WARREN G. HARDING was awarded Certificate of Merit at The International Flower Show in New York, March, 1921. Our stock of MRS. WARREN G. HARDING is very limited, so we would suggest that you order as early as possible.

**Crop very short. Pkt. (12 seeds) 25 cts.**

**3369 Mrs. Kerr** (BURPEE'S)  
"*The Best Early Flowering Salmon*."

MRS. KERR created a sensation when exhibited at The Great International Flower Shows in New York, March, 1920, and again in March, 1921. This magnificent novelty has been hailed by experts as being the greatest advance in this type, its introduction being eagerly awaited by all Sweet Pea enthusiasts. MRS. KERR has all the desirable qualities which go to make up a perfect flower. In addition to its unique and dainty color, the plant is of most vigorous habit and extremely floriferous. The flowers, of immense size and exquisite shape, are a most pleasing shade of rich salmon overlaid or suffused with orange. MRS. KERR produces flowers which are bold in the extreme; the standard is broad, deep, and charmingly waved; the wings are well placed, as are also the three, or more often four, flowers on their long stiff stems. It is impossible to fully describe the great beauty of this lovely variety. Awarded Certificate of Merit at The International Flower Show, New York, March, 1920.

**Pkt. (20 seeds) 25 cts.; 1/2 oz. \$6.50; oz. \$12.50; 1/4 lb. \$37.50; lb. \$125.00.**

**Burpee's  
White Star**

**3391 White Star** (BURPEE'S) A first-class black-seeded white Sweet Pea, lacking any suspicion of pink or other coloring, has long been wanted, and we now have it in WHITE STAR. The flowers, of enormous size, are freely produced in fours, and all beautifully waved and well placed on the stem. The flowers are of great substance and purest opaque whiteness, retaining their purity of color until the end. The plants are robust and branch freely and early, therefore should be allowed plenty of room in the row to avoid overcrowding.

We consider WHITE STAR to be the last word in black-seeded white varieties; it will be a boon to all who have had difficulty in germinating the white-seeded sorts, while the flowers, with their pure clear color, will be quite as valuable. WHITE STAR is not only a most important variety for winter blooming, but it is also well suited for outdoor culture. Awarded Certificate of Merit at The International Flower Show, New York, March, 1921.

**Pkt. (20 seeds) 25 cts.; 1/2 oz. \$6.50; oz. \$12.50; 1/4 lb. \$37.50; lb. \$125.00.**

# Burpee's Early- or Winter-Flowering Spencer Sweet Peas

The Winter-Flowering Spencer Sweet Peas are invaluable for greenhouse culture, blooming to perfection when grown indoors. If sown early in September, they come into flower by Christmas and may be had all winter long from succession plantings.

For the year of 1922 we have a number of outstanding novelties to add to the comprehensive list of Burpee varieties in the Early- or Winter-Flowering type of Spencer Sweet Peas. These novelties are described at length on the preceding page. In the list below, we have given only a brief line of description to each sort, for our space in this catalog is limited. For illustrations and full descriptions, see pages 111-113 of Burpee's Annual for 1922.

Practically every desirable shade and color is represented in the Burpee list of Winter-Flowering Spencers. Many colors are included which have been much wanted and are not offered by any other Sweet Pea grower. The seed which we offer has all been grown on our Floradale Farms in California. Our stocks come true to color. We have not offered a variety to our customers until we were sure it would give satisfaction.

## WHITE

	Oz.	¼ lb.	Lb.
3392 Improved Snowstorm (Burpee). Immense pure white. The finest early-flowering white (½ oz., 55 cts.) . . . . .	\$1 00	\$3 00	\$10 00

A panoramic view of Floradale showing the mountains in the distance. Some idea of the area cultivated may be had by comparing the ranch building at the left with the rest of the picture

# Standard or Summer-Flowering Spencer Sweet Peas

We offer re-selected stocks—grown at Floradale. Our list of varieties is complete and includes all the latest and most improved varieties. Sweet Peas are a Burpee specialty and we are growing yearly many thousand pounds of seed on our Floradale Farms. The crops of some varieties turned out very short last year and we, therefore, advise you to put your order in just as soon as possible to avoid disappointment. We will fill orders as long as our stocks last.

Full descriptions are given in BURPEE'S ANNUAL for 1922, pages 110 and 114 to 119.

	Oz.	¼ lb.	Lb.

BURPEE'S FLORADALE FARMS were established nearly 20 years ago for the sole purpose of producing the Burpee Sweet Peas. FLORADALE FARMS have developed each year until they have become famous as "The California Home of Flowers."

## For Florists

Those seeds which we do not grow on our own farms are produced under our direct supervision and every possible safeguard is used to guarantee the Quality of Burpee's Seeds.

In the list below we have not attempted to give descriptions, for this is primarily a business catalog. BURPEE'S ANNUAL for 1922, our retail catalog, gives detailed information and complete descriptions, and if any further particulars are desired, we shall be glad to answer inquiries promptly and fully.

**Our catalogs are our only salesmen.** We do not send our traveling men to solicit Florists' orders. Look through this catalog at your first opportunity and send your order direct to us by mail. It will be filled promptly and carefully.

**We do not offer "Trade Packets"** of flower seeds. The name "trade packet" is indefinite. In every case we are offering suitable fractions of an ounce (accurate weight) of the more expensive varieties at reasonable prices. If still smaller quantities are desired, you may order "retail" packets (for which see BURPEE'S ANNUAL) at a discount of 25%.

We solicit your inquiries and your orders. We are ready to serve you and assure you of our heartiest co-operation in making your business a success.

W. ATLEE BURPEE CO.

# Flowering Bulbs and Roots

The Florist, as well as the Landscape Gardener, will find much of interest in the following list. Burpee's Bulbs are selected with the same care and attention to Quality as are Burpee's Seeds. All of the bulbs and roots offered herein are first size (unless otherwise stated), sound and healthy, and sure to bloom if given reasonable care.

We take particular pains in specially packing bulbs and roots to ensure their arrival in good condition and, for this reason, always ship bulbs separately from seeds when both are ordered. When placing your order, specify when and how you wish your bulbs to be sent. We do not ship in freezing weather unless ordered to do so, and then only at customer's risk.

Our collection of Dahlias is especially worthy of attention. Our lists of Cannas, Gladioli, and Iris are not extensive but are carefully selected and comprise the best varieties for all purposes; in fact, it has been our aim throughout to offer Quality rather than Quantity. Refer to BURPEE'S ANNUAL for 1922, our retail catalog, for complete descriptions.

If you plant Tulips, Hyacinths, Narcissus, Crocus, or Hardy Perennials, send in your name now to receive a copy of BURPEE'S FALL BULB CATALOG (issued September 1st).

NOTE: Three or more bulbs will be supplied at the dozen rates, 25 or more at the 100 rates, and 250 or more at the thousand rates.

AMARYLLIS		Doz.	Per 100

**Burpee's Fordhook Hybrid Gladioli**

This distinct new race originated at Fordhook from numerous crosses of "Præcox" with the best varieties of "Gandavensis," "Childsi," "Nanceianus," "Lem-oinei," and other types. The flowers frequently measure four to five inches in diameter and range in color from creamy white, lemon-yellow, soft salmon-pink, to bright red and deepest crimson, while there are also lovely light lavender or sky-blue shades and charming, rare pastel and art shades in wonderful combinations of rose, pink, salmon, and amber.

## Burpee's Ready-Made Collections of Vegetable and Flower Seeds

The collections listed in BURPEE'S ANNUAL FOR 1922 are intended primarily for the amateur, but are occasionally ordered by the commercial grower for his wife or to fill in the odd corner of the garden patch.

To Market Gardeners, Garden Clubs, and Florists, we offer them at a special discount of 15% and, when twelve or more of a single collection are ordered, at a discount of 20%.

These discounts apply also to the special bulb assortments offered in BURPEE'S ANNUAL, when ordered in straight sets.

# Burpee's Dahlias

## Three Grand New Peony-Flowered Dahlias for 1922

*These new Dahlias are exclusively Burpee's and cannot be purchased elsewhere*

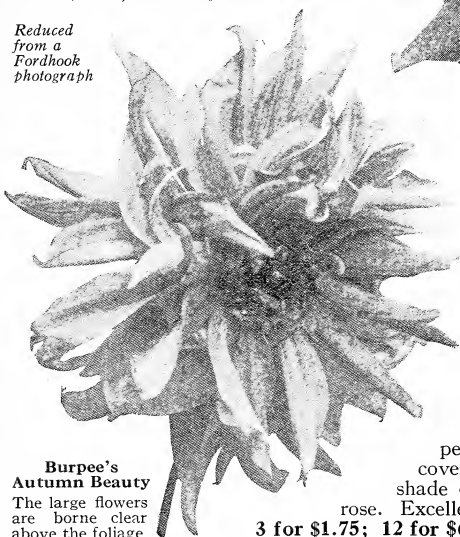

### 5220 Fordhook Cerise (Burpee's) Of

wiry, stiff growth and perfectly upright habit, this variety stands out in any collection. The color is a brilliant shade of rich cerise, with just a suspicion of orange toward the base of the petals. Of pleasing formation, the inner petals incurve artistically partly over the yellow stamens. An early bloomer, the flowers are produced profusely and continuously throughout the season, and are borne stiffly erect well above all foliage. A splendid garden variety. Strong roots: **75 cts. each; 3 for \$1.75; 12 for \$6.00.**

### 5221 Autumn Beauty (Burpee's)

This beautiful seedling is a favorite with all. One of the first to bloom and also one of the most free and continuous bloomers in our large collection. The flowers are large and a lovely combination of autumn shades, the petals being much curled and twisted, the inner petals at times incurving so that they partly cover the yellow stamens. The color is a pleasing shade of yellow and buff with a suffusion of light rose. Excellent for cutting. Strong roots: **75 cts. each; 3 for \$1.75; 12 for \$6.00.**

Burpee's Dainty Queen

### 5222 Burpee's Dainty Queen For

habit of growth and free-blooming quality, this beautiful variety is unsurpassed. The plant is of medium height, branching freely and flowering most profusely. The color is a most pleasing shade of rosy lavender, the lower half of the petals being white, while the central and smaller petals are altogether white, gradually becoming suffused with lavender toward the tips and forming a most dainty color combination. Like all the Burpee Dahlias, Dainty Queen is just as valuable for garden decoration as it is for cut-flowers. The growth of the plants is upright and strong. The blooms are borne above the foliage and they can be cut with very long stems. The rich green foliage adds greatly to the beauty of Dainty Queen. We offer strong roots, all grown on FORDHOOK FARMS. **75 cts. each; 3 for \$1.75; 12 for \$6.00.**

# Peony-Flowered Dahlias

**5195 COPPERSMITH** A pleasing shade of light copper or bronze with a metallic suffusion. An ideal garden variety unsurpassed for cutting or general decorative work. It blooms early and continuously.

75 cts. each; 3 for \$1.75; 12 for \$6.00.

**5197 MRS. G. W. KERR** A strong and vigorous variety with very large flowers of rich reddish plum, changing to crimson, with lavender tips.

35 cts. each; 3 for 90 cts.; 12 for \$3.00.

**5198 MRS. HUGH DICKSON** The color is a fine combination of salmon, buff, and pink with yellow shadings at the base of the petals.

30 cts. each; 3 for 75 cts.; 12 for \$2.50.

**5199 MRS. W. E. WHINERAY** The color is a beautiful shade of rose, suffused with clear yellow, which becomes deeper at the base of the petals.

35 cts. each; 3 for 90 cts.; 12 for \$3.00.

**5200 FORDHOOK WHITE** The yellow center forms a good contrast to the pure white petals.

20 cts. each; 3 for 50 cts.; 12 for \$1.75.

**5201 FORDHOOK BEAUTY** A fine shade of rich bronzy red, suffused with salmon and yellow.

20 cts. each; 3 for 50 cts.; 12 for \$1.75.

**5202 MME. VON BYSTEIN** The color is a soft mauve shading lighter toward the edges of the petals.

35 cts. each; 3 for 90 cts.; 12 for \$3.00.

**5203 THE BRIDE** Large size flowers of fine form. White, suffused blush towards the center.

35 cts. each; 3 for 90 cts.; 12 for \$3.00.

**5206 FORDHOOK CREAM** A delightful shade of cream with yellow suffusion. An excellent cutting variety.

20 cts. each; 3 for 50 cts.; 12 for \$1.75.

**5208 ROMOLO PIAZZANI** One of the most free and early-flowering varieties. The color is a combination of yellowish salmon and rosy amber.

40 cts. each; 3 for \$1.00; 12 for \$3.50.

**5209 FORDHOOK MAROON** A robust and strong grower with very deep rich maroon flowers.

75 cts. each; 3 for \$1.75; 12 for \$6.00.

**5210 MRS. JOHN GRIBBEL** Light salmon-pink, heavily flushed amber and salmon.

25 cts. each; 3 for 65 cts.; 12 for \$2.25.

**5211 JOHN D. ROCKEFELLER** An outstanding Burpee variety with large flowers of a magnificent salmon-buff. It blooms very early.

35 cts. each; 3 for 90 cts.; 12 for \$3.00.

**5212 HORTULANUS BUDDE** This variety has attractive orange-scarlet flowers of large size.

25 cts. each; 3 for 65 cts.; 12 for \$2.25.

**5213 GOLDEN ROSE** An attractive shade of yellow, suffused rose, each petal having a distinct picotee edge of rose.

25 cts. each; 3 for 65 cts.; 12 for \$2.25.

**5215 CECILIA** A strong-growing variety with large flowers of lemon-yellow, changing to a creamy white.

60 cts. each; 3 for \$1.50; 12 for \$5.00.

**5216 H. J. LOVINK** A delicate combination of white blended with lilac. The flowers are large and are carried on long, strong stems.

30 cts. each; 3 for 75 cts.; 12 for \$2.50.

**5219 ORIENT** Extremely free-flowering and borne on long stiff stems. The color is orange-scarlet, heavily flaked with bright yellow.

30 cts. each; 3 for 75 cts.; 12 for \$2.50.

**5223 LEMON QUEEN (Burpee's)** A very fine new Peony-Flowered Dahlia of clear lemon-yellow self. Blooms freely and continuously.

25 cts. each; 3 for 65 cts.; 12 for \$2.25.

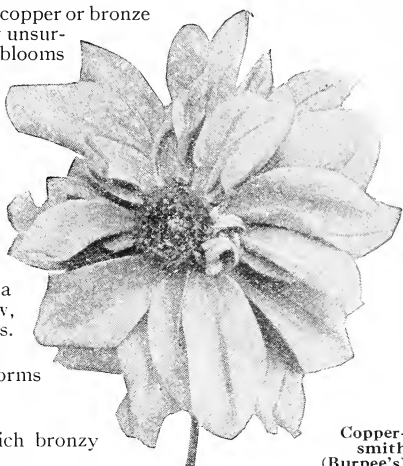

**5224 HARLEQUIN (Burpee's)** This fine variety is a striking combination of deep rose flaked with white.

25 cts. each; 3 for 65 cts.; 12 for \$2.25.

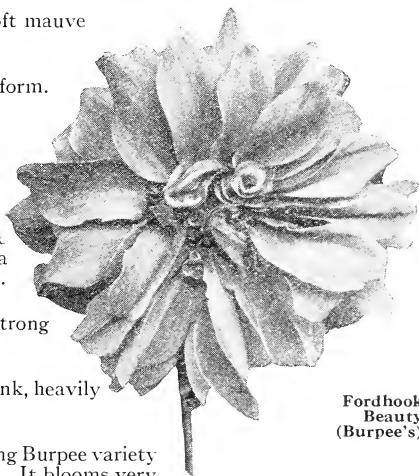

**5244 QUEEN ELIZABETH** A most attractive and pleasing variety with large and well-formed flowers of clear bright pink.

75 cts. each; 3 for \$1.75; 12 for \$6.00.

**5270 PEONY-FLOWERED MIXED** 3 for 25 cts.; 12 for 85 cts.; 100 for \$5.50.

# BURPEE'S SEEDS

## The Best Seeds that Grow

FOR nearly fifty years Burpee's Seeds have set the standard by which all other seeds have been judged. Year in and year out Burpee's Seeds have been safe and dependable—always of the highest quality it has been possible to produce.

Such a record for reliability can be established and maintained only by constant attention to every detail, expert knowledge, and careful trials and tests. The whole Burpee Business—its organization and its policy—is built upon the one fundamental principle, the **Reliability of Burpee's Seeds.**

By far the greater part of Burpee's Seeds are selected and grown right on the Burpee Farms, in various parts of the United States—a greater proportion than that grown by any other American seedsman. And those not produced on our own Farms are grown by tried and experienced men under our direct supervision.

### Burpee's Fordhook Farms

The largest and most complete trial grounds in America are located near Doylestown, Bucks County, Pennsylvania. It is at Fordhook Farms that we test and prove the quality, the vitality and purity, of every lot of seed sold by the House of Burpee. Each year over 15,000 germination tests are made in the greenhouses at Fordhook, and over 7,000 purity trials in the open trial grounds, in addition to the numerous plantings for stock seed selection. Here also are acres of Tomatoes, Phlox, Poppies, Salvia, Zinnia and many other Vegetable and Flower Seed crops.

### Burpee's Sunnybrook Farm

The warm soils of Gloucester County, New Jersey, are particularly well adapted for the growing of some of the more tender crops. At Sunnybrook Farms we grow seed of Peppers, Egg Plants, Melons, and Cucumbers and the famous Sunnybrook strain of Earliana Tomato, as well as many other Vegetables and choice Flower seeds. And at Sunnybrook Farm we make our purity trials of Melons, Squashes, Pumpkins and other Vine crops.

### Burpee's Floradale Farms

The many acres of this California Home of Flowers are devoted to the growing of selected stocks of the finest varieties of Flower seeds. For its Sweet Peas alone it is famous the world over. Alyssum, Snapdragon, Larkspurs, Calendulas, Marigolds and others, too numerous to mention, grow to perfection in the fertile climate of sunny Santa Barbara County. A visit to Floradale Farms when the Sweet Peas and other Flowers are in bloom is worth a trip across the continent.
